

## Welcome To Divernon Township Library

### By the Community for the Community

In 1966 the Divernon Women's Club started a local library as a club project. The community donated books, shelves, and desks to start the library; funds were raised to support the library and volunteers operated the library. In 1967 the people of Divernon voted to support the library through local taxes and Divernon Township Library officially came into existence. . Because of growth a staff was hired in 1974. In 1999 the township library expanded its current location.

Divernon Township Library now has many plans for the future and hopes that everyone in the community will take advantage of our resources and continue to support our efforts.
